

1.2 ENVIRONMENTAL POLICY

Material Test and Inspection Ltd is committed to working in a manner, which conserves our environment and protects the safety, health and welfare of our employees, sub-contractors, clients and the environment of the neighbouring community. Our objective in the area of environmental health and safety of both our employees and the community and to assume a responsible position at all times with the careful disposal of waste generated by our activities.

We will endeavour to seek to minimise the creation of waste by wastage of materials and recycling materials, which cannot be directly re-used as far as is reasonably practicable.

In order to accomplish this we will at all times:

- a) Comply with all Local Authority, National Legislation and EPA Regulations.
- b) Ensure that our operations and products used will not create unacceptable risk to human health or the environment.
- c) Assess the discharges and waste generated from our operation, sites and premises with regard to their effects, if any, on the environment and the local community.
- d) Ensure that all of our waste generated will be disposed of properly and in accordance with the manufacturer's instructions or industry best practice.
- e) Mr. Martin Dolan shall take care to provide suitable waste receptacles and ensure that arrangements are made for their collection/emptying at a suitable frequency.
- f) Where possible waste generated will be collected by either the local authority refuse collectors or by contract with an authorised and licensed waste carrier at regular intervals.
- g) Staff responsible for collecting waste shall avoid handling overfilled waste receptacles/bags to minimise the risk of a manual handling injury.
- h) Will endeavour to keep our premises and surrounding grounds as tidy and as clean as possible.

A conscientious effort and commitment to excellence from all staff will achieve our goal of a less hazardous environment.

All employees are reminded of –

NEVER POUR OR SPILL ANY HAZARDOUS MATERIALS INTO A DRAIN
