ENVIRONMENTAL POLICY STATEMENT

Material Test and Inspection Ltd acknowledges that the environment can potentially be impacted by any of its activities, products and services. This policy sets out how the organization will manage, monitor, measure and otherwise be accountable for its ongoing environmental performance.

In the implementation of this policy, Material Test and Inspection Ltd will adhere to the requirements of relevant local, national and international law pertaining to the environmental aspects and impacts of the organization and ensure that this policy kept up to date in line with those requirements. This policy should be considered as part of a set of policies that include:

MTI Health and Safety Policy

Material Test and Inspection Ltd is committed to prevent pollution wherever possible and will ensure that as well as optimising new products, services and processes to facilitate this prevention, existing systems and processes are reviewed in order to identify areas for pollution prevention. For each product, service, system or process, this will be achieved by:

- ✚ eliminating the use of polluting materials or technologies;
- ✚ reducing the use of polluting materials or technologies;
- ✚ transferring materials or waste outside of Material Test and Inspection Ltd for recycling or reuse; and,
- ✚ where no other option is available, controlled disposal or incineration.
- ✚ All waste generated will be removed from site by MTI, the office waste for re-cycling and the hazardous waste to be disposed of by Ocon Ltd in accordance with EN 14001.

Material Test and Inspection Ltd will integrate environmental management procedures, processes and planning with the general operations of the organization to maximise the potential reduction of the organisation's environmental impacts.

Through the use of environmental performance evaluation procedures and key performance indicators, Material Test and Inspection Ltd will seek continual improvement in its environmental performance. This will be achieved through the proper implementation of its environmental management system. The design, development and management of the environmental management system, related procedures and indicators is the responsibility of the Managing Director.

Do you want to make a commitment to setting an example of good environmental management?

Through the implementation of this policy, Material Test and Inspection Ltd will set a leading example of good environmental management for its industry.

It is the responsibility of the Managing Director to ensure that this policy is implemented throughout the organization.

It is the responsibility of the Administrator to ensure that this policy is properly maintained and up to date.
